Carpet—overhead that’s underfoot.

Carpet is a major investment for any commercial property. Regularly scheduled cleaning by ServiceMaster Clean® professionals will extend your carpet’s life and help prevent:

- ▶ Matting
- ▶ Discoloration
- ▶ Fading
- ▶ Fraying
- ▶ Premature replacement

Typically, carpets are deep cleaned just once a year, with spot cleaning and traffic lane cleaning in between. This lets soil build up, damaging fibers and ruining the look and feel of the carpet. Plus, unsightly traffic patterns develop over time.

Regular care. Predictable costs.

ServiceMaster Clean’s monthly carpet care program prevents all this. Consistent, regular carpet care by our professionals means longer carpet life and less frequent and costly replacement.

Regular preventive maintenance means predictable monthly payments. That way, you can eliminate hidden and surprise costs that won’t overwhelm your maintenance budget.

What are the benefits of ServiceMaster Clean’s programmed carpet care? It will:

- ▶ Maintain the color and texture of your carpet
- ▶ Extend the life of your carpet investment
- ▶ Reduce wear, especially in high-traffic areas
- ▶ Promote a consistent appearance
- ▶ Provide regular spot cleaning
- ▶ Use the best practices in carpet care
- ▶ Project a professional corporate image
- ▶ Ensure a healthy work environment

ServiceMaster Clean® professionals follow procedures recommended by carpet manufacturers to design a carpet maintenance program that meets your specific needs.

ServiceMaster Clean—the leader in carpet care.

For over 55 years, the ServiceMaster Clean® network of highly trained, thoroughly screened specialists has led the carpet cleaning industry in customer satisfaction. Our commitment to quality will exceed your expectations, and the expectations of those you serve.

We use proprietary products, cutting-edge practices and the latest equipment to better serve you and ensure your satisfaction. That’s why thousands of businesses worldwide rely on us to deliver the highest level of clean.

Regular maintenance eliminates the damaging effects of deep soiling.

Local access. Nationwide resources.

We use our expertise and resources to transform ordinary tasks into extraordinary service. Our carpet cleaning teams are handpicked for their ability to do the job right the first time.

Whatever your industry—healthcare, education, government, hospitality, property management, manufacturing, or more—ServiceMaster Clean can improve your business environment. We’re committed to your satisfaction. Nothing less will do.
